SUMMARY

Frontend Engineer with 3+ years of experience building scalable, production-grade healthcare SaaS applications using ReactJS and TypeScript. Specialized in complex dynamic forms, SDK integrations, and real-time communication systems. Delivered high-impact modules across RPM, RTM, and CCM workflows used daily by US healthcare providers. Strong ownership mindset with focus on performance, maintainability, and clean architecture.

SKILLS

Frontend:	ReactJS, TypeScript, JavaScript, Material UI, React Query, React Hook Form, Redux, Twilio Conversations SDK, REST APIs, SDK Integrations, HTML5, CSS3, SASS, Chakra UI
Architecture:	Performance Optimization, Reusable Component Architecture
Testing and Tools:	Jest, Enzyme, Git, Agile Scrum, Cursor AI

EXPERIENCE

Nov 2024 - Present   **Thinkitive Technologies Pvt Ltd . Frontend Engineer**   **Company**

- Own end-to-end frontend development for a healthcare SaaS platform supporting RPM, RTM, and CCM workflows.
- Built 15+ complex multi-step dynamic forms using React Hook Form and Material UI, reducing manual data entry time by 30%.
- Integrated Twilio Conversations SDK to deliver real-time provider-patient and group messaging features.
- Implemented React Query caching and optimized API calls, reducing network requests by 40% and improving page load performance.
- Developed billing and care-plan modules used daily by healthcare providers for claims and patient tracking.
- Led reusable component architecture, improving development speed and reducing duplicate code.
- Accelerated feature delivery by 25% using AI-assisted development tools (Cursor AI).
- Collaborated closely with backend, QA, and product teams in Agile sprints to ship production features reliably.

  Skills: ReactJS, TypeScript, Material UI, React Query, Twilio SDK, Git, Agile.

Mar 2024 - Oct 2024   **HeapTrace Tech Pvt Ltd . Frontend Developer**   **Company**

- Independently handled client requirements, technical discussions, and project execution.
- Delivered multiple Proof of Concepts that converted directly into production solutions.
- Designed dynamic dashboards with complex filtering and data visualization logic.
- Optimized state management and rendering strategies, improving UI responsiveness and performance.
- Worked closely with stakeholders to translate business needs into scalable frontend solutions.

  Skills: ReactJS, JavaScript, REST APIs, Performance Optimization.

Dec 2022- Mar 2024   **Trinesis Tech Pvt Ltd . Software Developer**   **Company**

- Developed scalable enterprise web applications using React and JavaScript.
- Built reusable component libraries adopted across multiple projects to improve consistency and speed.
- Integrated REST APIs and implemented modular architecture for maintainable codebases.
- Added unit tests and documentation to reduce regression issues and improve code quality.
- Collaborated with cross-functional teams in Agile environments for timely delivery.

  Skills: ReactJS, Redux, SASS, REST APIs, Jest, Git.

EDUCATION

4/2020 - 8/2022   **Shri Ramdeobaba College of Engineering and Management**   **7.79 CGPA**
Master of Computer Applications

PROJECTS

1.   **Unity Health Platform**   *Healthcare SaaS*
- Built care-plan workflows, billing, and Twilio-based real-time chat.
- Supported thousands of patient records and provider interactions daily.

  Technologies: ReactJS, Material UI, React Query, Twilio SDK, React-Redux, Agile.

2.   **DRIMS & SMC**   *E-Gov Records Platform*

- Large-scale records lifecycle management system.
- React + Redux architecture with modular UI components.

  Technologies: React, Redux, Kendo-React, and other React libraries, JavaScript, SASS, modular CSS, Rest API, Jest & Enzyme.

3.   **Shipping & Logistics Management**   *Fleet Management System*

- Built Gantt charts and tracking dashboards with Highcharts.
- Optimized heavy data rendering for performance.

  Technologies: React, TypeScript, Highcharts.js (Gantt), vanilla JavaScript, Chakra UI, SASS.

CERTIFICATE

Namaste React **(namaste react Certification)**
Front End Development Libraries **(freecodecamp Certification)**
Professional JavaScript 2023 (Beginner to Advanced!) **(Udemy Certificate)**
Professional CSS (Flexbox, Grid, Animations & More) **(Udemy Certificate)**
